First prize in competition

The grouping occupies an enormous lot located in the heart of Camas. The plaza is divided longitudinally in two parts. One part is paved to give access to the Town Hall and the Library; and the other part is full of trees and, among them, some benches, a fountain, as well as the Auxiliary Building with lavatories, shops, and a small bar. The political and the administrative functions of the Town Hall, with an L-shaped plan, are well arranged. The Library is an almost closed building with three large skylights.
